THURSDAY, OCTOBER 29
12:10 PM
CEMEX AUDITORIUM

ADMISSION IS ON A FIRST COME, FIRST SERVED BASIS
STANFORD ID REQUIRED

Dr. Kim is a physician and anthropologist, who has dedicated himself to international development, helping to improve the lives of underserved populations worldwide. In 1987, Kim cofounded Partners In Health, a nonprofit medical organization that now works on four continents to tackle drug-resistant tuberculosis and HIV/AIDS by integrating large-scale treatment programs into community-based primary care. Under Kim’s leadership as the 12th president of the World Bank Group, the organization has established goals to end extreme poverty by 2030 and to boost shared prosperity for the bottom 40 percent of the population in developing countries.
